2. Chapter 2

Jack was jumping on the buildings, enjoying the wind in his hair. The moon was shining and he was very cheerful that day. He had no idea why. He just was. Then suddenly something flew by his ear. He quickly turned around in order to look for the person who fired that.

**Since I got so many reviews I just had to write a little clip. Yes, it's based on the very well known clip, but I hope you'll like it. The story ain't mine. So I can't write it. I'm just in charge of the trailer.**

**The story's from ZeldaGirl. Not me. Sorry.**

He saw nobody. But something inside of him was telling him that he better flew on the ground. Jack put his staff in front of him in order to protect himself.

-Oi, lad. S'been a long time. â€ He heard and quickly turned around to see a familiar female figure. 'Oh, no, no, no, no. Please, anybody but her, anybody...'', he was thinking. The figure came in the light, revealing her wild red hair, green dress and bow with arrow in her hands.

-It was 1816, I believe. Year without summer, wasn't it? â€ Merida asked. He leaned on his staff and stucked his smirk on his face.

-You're not still mad about that, are ya? â€ He asked her. She narrowed her eyes at that and gritted her teeth.

-Yes, I am. But this is 'bout somethin' else. Lads. â€ She said and suddenly two dragons attacked Jack and knocked him out. He fell on the floor, sleeping like a baby.

-Good wee dragons. â€ Merida said and put Jack on one, while she set on the other. They took off to the Isle of Berk.

* * *

><p>Jack woke up due to the killer headache and loud voices. He looked around and saw a huge wooden house, decorated with shields, helmets, weapons and a lot of Fall decorations. He cursed everything, knowing where he is. The voices stopped, which meant...<p>

-Hey, there he is. Jack Frost! â€ The boy with auburn skater like hair and green eyes said. Next to his side, was a girl with a looooooong blonde hair, smiling like crazy.

-Wow... You gotta be kidding me. â€ He whispered while still laying on the bed, looking at them. Merida was leaning on the wall, looking at the point of her arrow. Suddenly, a pair of huge teeth grapped him for his hoodie and pulled him up.

-Hey, hey, hey! Put me down. â€ He said to the green, snake like dragon. The beast obeyed.

-I hope the dragons threated you well. â€ Hiccup said while patting the dragon.

-Oh, yeah! Yeah, I love being shooted by the arrows and knocked out by the dragons. â€

-Oh, great! That was my idea! You know Merida, obviously. â€

-Obviously. â€ Jack repeated, while sending her another smirk and a bow of his head.

-And Rapunzel. â€ In that moment in front of him was Rapunzel, smiling and staring into him. Jack had to admit, she was pretty.

-Hi, Jack. I heard so much about you! I'm so sorry for you being alone, cause I know how that feels like, you know, me being locked in the tower and all, and then mother Gothel... â€

-Sweetie. Enough. â€ Hiccup said. She smiled and shrugged her shoulder saying 'ups, sorry'. Jack looked at Hiccup again.

-Any one mind telling me what am I doing here? I mean, I probably had done something really bad to get all three of you here... Did I send another blizzard during Fall, fish bone? â€ Jack asked. Hiccup narrowed his eyes and smiled.

-Another blizzard? You threw me 54 in the last 200 years. But, we've past that, now we're clean as the Night Fury's scales. â€ He said. Jack raised his eyebrows at that.

-How come? â€ He asked. Merida smirked.

-Good question. â€ She said.

-How come? I'll tell you how come, cause from now You're officially a

Guardian! â€" He announced. That made Jack laugh. He laughed so hard that he fell on the floor again.

-Me? With you three? What makes you think I wanna be a Guardian? Sides, you don't want me. You're all hard work, and deadlines! And I'm... snowballs and fun times. I'm not a Guardian. I told you guys this 300 years ago, and I'm telling you this now. NO! â€" Jack said.

-Jack, the natural order is in danger. Once-ler and Mavis Dracula are on their way to destroy the humanity and Nature itself! How can you say no? â€" Rapunzel asked.

-Easy. N-o. No. No offence, by the way. â€" He said. Hiccup narrowed his eyes again.

-How was that not offensive? â€"

-Yeah, I mean what does this clown knows about protecting? â€" Merida asked. Jack sighed and turned around to face her.

-Um, you ever hear of a winter wonferland? I know it's not fresly grown apple, but humanitly likes what I do. â€" He said. Hiccup stepped forward.

-But humanity does hate the winter most, doesn't it, Jack? â€"

-Hiccup! That's enough! â€" Rapunzel said angrily. Jack smiled.

-No, no. The fish bone is right. â€"

-That fish bone also has an army of dragons, you know, Frostbite. â€" Hiccup replied.
